### THE BOARD OF ARBITRATION.

A meeting will be held to-morrow by the State Board of Arbitration. What the result will be cannot now be told. But it must certainly consider the question of an investigation. Knowing its powers the "piants" are not corporations. and perceiving the results of such an investigation it would not be strange if the Board decided to exercise its right of sifting thoroughly the reasons leading to the dismissal of employees on the Central.

If they should do nothing the strikers will have one more disappointment to contend with. This much must be said to the credit of the men who struck: That they have maintained an orderly spirit in their strike, and in the face of much that was irritating have not lost their patience nor thrown away sobriety.

This is one of the most praiseworthy qualities they could have manifested. Bad measures to enforce a right are a poor remedy of a wrong. Public sympathy could not be accorded to violence or revolutionary heat. But the conduct of the strikers has been such as to commend them, and to suggest@that they who stand so firmly, patiently and courageously for a point are defending legitimately a right.

## THE DYNAMITER,

Dr. Justin is the inventor of a dynamits bombaheli which will not explode until it strikes some object. At least, that is Dr. Justin's conception of the thing, though experiments do not bear out this view as thoroughly as might be

In the first experiment some months ago the gun was blown to flinders. In a second trial yesterday a twelve-ton gun was reduced to a little shower of iron pastules. Of course this illustrates the explosive force of a dynamite shell, but that was sufficiently demonstrated before. That such a shell can be thrown from a gun with safety to the gun, and, incidentally to the bystanders, yet remains to be proved.

It would be awfully disconcerting to a little band of gunners, whose eyes are fixed with feverish interest on some distant object which is to be pulverised, to have the gun suddenly distributed among themselves. This is worse than "kicking."

If Dr. Justin's dynamite shell cannot be secured against this rash haste in exploding it is not such a blessed auxiliary to warfare as he promises, not at least for the side which employs it. The Doctor will have to brace it up, or give up the

Isaac Muzruy, that prince of jockeys. was so fuddled either with grog or drugs at the race at Monmouth yesterday that he brought in Firence a bad loser. Thousands of dollars were staked on the game mare, and that she failed to win is ascribed by the losers to MUBHER's deplorable condition. The jockey should be subjected to a rigid examination. If he were drugged, he is not, of course, in the same box as if he paralyzed himself with drink before the race. But a man does not like to think he is chancing his money on a jockey's thirst, and no matter how good the juckey's qualities as a rider may be, such conduct is not to be tolerated. # "THE MAISTER OF WOODBARROW." INVENTOR SINGLEY'S STORY.

The possibilities of forming a stage so quaintance with a writer who has given forth such delightful books as "Three Men in a Boat," Idle Thoughts of an Idle Fellow" and "Starciand" was something worth anticipating. Jerome K. Jerome had a very large and attentive andience last night, and his play "The Maister of Woodbarrow" was presented under the most favorable conditions. I believe that the comedy was called "Woodbarrow Farm" in London, but I suppose that title would have been too Denman Thompson-v for this

I confess that I was very anxious to see what the author of "Stageland," with its keen satires upon conventionality, would do when consconted with the stern facts of the stage. Mr. Jerome's wit has told us of the eternal stage villain; of the everlasting heroine, who will be miserable at all costs of the amorous hero, who is always on hand when a reserve is needed, and of the enfail ing funny man, with his witicisms. And i may at once be said that Mr. Jerome ha been completely on his goard egainst that direst of foes, conventionality. He over dently holds this bugbear in wholesom dread, for, although the subject of "The Maister of Woodbarrow" is as old as the hills, Mr. Jerome has trested it in a thoroughly artistic manner, sufficiently origins to be acceptable.

The play is filled with the most delicate and perfect specimens of humor, and with it has also been breathed the faint aroma of so admirable is Mr. Jerome's art of causing laughter and tears in the most surprising occession that I would recommend any ad mirers of such literary achievement to read his " little Thoughts of an little Fellow," and for sheer, undiluted fun his "Three Men n a Boat. " I read it one day on a car riding uptown, and I was thoroughly ashamed f my idiotic conduct, for I almost rolled out f the vehicle in my laughter.

"The Maister of Woodbarrow" is a fragrant story of a young country boy, with apprations for the city, who suddenly finds numself heir to £200,000. He goes to London and falls in love with an adventuress. who is auxious to use him for the financial benefit of herself and husband. To many it will seem strange that Allen Boilitt should have found none but blackless in London. but it is quite likely that a verdant youth suddenly coming into possession of an enormous sum of money, should be monopolized by his fleecors. There is a heavy villain in the background-oh, so delightfully in the background. He doesn't excisim, "I'll be revenged," with the usual teeth grind, and airily remark: "Excuse me while I run out and kill a man or two or words to that effect. It is a very small part, introduced in order that a rightful herr may get Allen's money, when it is time to send that young man back to Woodbarrow Farm. The death of the rightful beir was attended by the husband of the woman Allen loves. In order to save her he herocally gives up the £200,000 unquestion ngly and goes back to the farm.

There are many charming incidents in the play. The old mother's appearance in the nidst of the gay throng, affected by Allen, FURNITURE s very daintily shown, and the scenes with he fastidious valet are games in themselves. E. H. Sothern was a disappointment as Allen Bollitt. Such a part seemed to be beyoud him, and his dialect was evidently asumed with great difficulty. Indeed, there is too much dialect in "The Maister of Woodbarrow." It almost rained the first act, which was tedious. Then Mr. Sothern's perpetual Dundreary laugh was irritating and his louder un-Dundreary laugh still worse. Ailen Bollitt is not a "star" part-or ought not to be. I believe that George Giddens, the clever actor of Wyndham company, played it in London,

Augustus Cook, as Mr. Piflin, the valet overed himself with glory. His work was excellent, irreproachable in every way, a was that of Mrs. Kate Denin Wilson, who proved herself to be a thorough artist. Miss Netta Guiou was charmingly pathetic, and Tully Marshall's little sketch stood out pie turesquely. Miss Virginia Harned wore gorgeon

clothes, and was on the very best terms imaginable with herself and audience. Miss Harned, in spite of this handicap, gave a very creditable performance. "The Maister of Woodbarrow" is worthy the Lyconm where we get all and daintiest in the world of humor and

Benjamin Franklin Raised the Price

of a Book While Talking. One morning when Benjamin Franklin was busy in the press-room on his news paper a lounger stepped into the book store and spent an hour or more in look. ing over the books, says Youth's Compan ton. Finally he seemed to settle upon one, and asked the clerk the price.

"One dollar," answered the c'erk.
"One dollar," echoel the lounger
'can't you take less than that?" One dollar is the price," the clerk an-

wered.
The would-be purchaser looked over the ooks awhile longer and then inquired:
Is Mr. Franklin in?"
"Yes, he's busy in the printing office," an. The clerk told Mr. Franklin that a gen-

leman was in the store, waiting for him. ranklin soon appeared and the stranger "What is the lowest, Mr. Franklin, that you can take for that book?"
"One dollar and a quarter," was the prompt answer.
"One dollar and a quarter! Why, your clerk saked me only a dollar just

now."
"True," replied Franklin, "and I could have better afforded to take a dollar than to leave my work."
The man scened surprised, and, wishing to end a paricy of his own seeiing, ing to end a parley of his own seeking, said: "Well, come, now, tell me your lowest price for this book." "One dollar and a half."

"A dollar and a half."

"A dollar and a half."

Why, you offered it yourself for a dollar and a quar-

Yes," said Franklin, coolly, "and I had better have taken that price then than a dollar and a half now."

This was a way of trade which took the man quite by surprise. Without a word he hald the money on the counter, took his book and left the siore.
